

Standard Pigmented Colors for Sunbelt 1100 & 1600 Systems

***Important note:** Colors viewed are approximate actual colors. Aspects such as types of individual computer monitors (settings and calibration) greatly influence the appearance of colors. It is recommended that you contact our office and request a free color chart.

Final color approval should be made from actual sample. Final finish color appearance is affected by lighting, surface texture, gloss and method of application.

Light Gray

Navajo White

Gray

Beige

Diego Blue
